

CV - LACHLAN JONES

FULL STACK WEB DEVELOPER

OBJECTIVE

To use my skills, enthusiasm and energy, along with many ideas I have using technology to produce tools and products. I also have great people skills, can speak to and identify with a great variety of people from diverse backgrounds and will use all of these to the benefit of a company and its customers.

CODING SKILLS

HTML, CSS, Javascript, jQuery, Bootstrap, Node, Express, Handlebars, Firebase, MYSQL, React, Node, Express, Handlebars, JSON, RESTful API, MySQL, Sequelize, MongoDB, Mongoose, Google Firebase, Axios.

EXPERIENCE / WORK EXPERIENCE

Full Stack developer with a passion for creating polished web products with a recent graduation from UWA's Full-Stack Developer Bootcamp course. I've created user experiences such as an Event Seeker, Travel app and a Minecraft game and continue to work on projects in order to showcase my skills and experience.

I've worked at Coles in Claremont whilst studying and have organised and participated in work experience, some of which are listed below:

- **2019:** Work Experience @ BG Wealth - Accounting
- **2018:** Achieved a Cert II in Business (BSB20115)
- **2017:** Work Experience - Westpac Bank's Cyber Security
- **2016:** Work Experience - UWA Computer Science Dept

EDUCATION

Graduated from Shenton College in 2018 and graduated in March 2020 from UWA's Full-Stack Developer Bootcamp course. This intensive, full immersion course was designed & developed as a result of direct recent industry consultation and the curriculum developed to ensure content was fit for purpose and relevant for today's workforce.

QUALIFICATIONS

Shenton College - ATAR Score of: 84.5

UWA Coding Bootcamp Certificate - March 2020

VOLUNTEER

As a young member of a community group, I assist older people who are challenged by technology, voluntarily providing a free "Helpdesk".
